## When will I receive the tracking code?

**You will receive your tracking number once your order shows the status “SHIPPED” on the website.**

If your order status is "Picked up by courier," there is no tracking code yet. You will receive it only when the next status is "shipped."

We'll send you a tracking code by email, and if you placed your order as a registered user, you'll be able to see it in your Driada account.
